

Letter of Recommendation

This is a letter of recommendation for Shafin Talukder Nill. I have known Shafin for last 4 months, as his co-worker and Management Head. Shafin worked for me at AMPLESOFT Limited, within the Operations Management (OM) Team.

Shafin is a highly motivated and qualified professional with experience in all aspects of business strategies including operational, anchoring and employee relations. He was able to manage our clients for AMPLESOFT very strategically. He has a unique ability to work in the space between Operation and Execution. He worked well with all team members. He worked well with our corporate offices with his focus always on driving the business he was responsible for.

Shafin became a very valuable resource within our company and was assigned many different responsibilities. He picked up all the businesses we assigned him; Technical, Operational, Client handling.

Shafin is a result driven professional who drove our strategies into operation. As a Chief Executive Officer (CEO) of AMPLESOFT Limited, I would happily have Shafin back in my company due to his ability to be a strategist, his attention to the customer needs, his creativity, as well as a supervisor. He truly has a strong understanding of the hospitality business. I would highly recommend Shafin.

Sincerely,

Fahimul Karim Worthy

Chief Executive Officer (CEO)

AMPLESOFT Limited
